Ancient Greece

Ancient Greece has a huge impact on our culture. It influences many parts of the United States today. Our country's democratic government was first used by Ancient Greece. They had the first democracy in the world. A democracy is when the citizens of a country choose its leaders. The Ancient Greeks used a form of democracy called a direct democracy. In the United States, we have a representative democracy and elect leaders to vote for us.

Ancient Greeks also started the idea of a trial with a jury. The Ancient Olympics originally began in Athens, Greece. We still enjoy the Modern Olympics today. The Ancient Greeks also first created the columns that you see in front of homes and courthouses. You can see examples of columns on many monuments and buildings in Washington, D.C. Ancient Greece also has an important influence on doctors today. In fact, that is where the first medical school was formed.
